# ONE SOLUTION

## ABOUT COMPANY

One Stop Office Solution was incorporated in 2003 in Singapore. We strive to be a leading security technology enabler for our clients to increase productivity & maximize business results through wired and wireless security technologies.

We provide security solutions such as CCTV cameras, spy cameras, DVRs, pin / access card, biometric door access readers, security alarms and PABX systems for corporate clients as well as individual users.

Our first office was in TechPlace 1. Over the years, we have grown bigger and in 2011, we moved to a bigger office in Midview City to better serve our growing list of clients.

At One Stop Office Solution, we pride ourselves on delivering security solutions that work reliably to achieve desired results for our clients. Our principles of Service, Innovation and Reliability drive everything we do. We believe these three words sum up the key attributes that will best serve our clients and continue our success.

# ONE STOP OFFICE SOLUTION

## Singapore CCTV Surveillance, Alarm and Biometric Specialist

One Stop Office Solution is a security and CCTV surveillance company specialising in CCTV cameras, DVR systems, spy cameras, pin / card / biometric door access systems, security alarm systems, PABX installation for corporate clients and home users in Singapore. Many of the esteemed government agencies and established MNCs are our clients.

## One Stop Office Solution work with SMEs, Enterprises and non profit organizations. We love to provide CCTV Solution.

One Stop Office Solution specializes in CCTV cameras, DVR systems, spy cameras, pin / card / biometric door access systems, security alarm systems, PABX installation for cooperate clients and homeowners. Many of the esteemed government agencies and established MNCs trust us when it comes to CCTV in Singapore.

### Vision

One Stop Office Solution aims to be the leading security system expert that corporations and high net worth individuals depend on for asset and family protection.

# More Like a Partner than a Vendor

We are obsessed with your success. We see ourselves more like a partner in your business than just a vendor.

## What can you expect from OSOS?

We will work with you on CCTV Surveillance and continue to provide technical support. As a business partner, we would like to grow with you and help you to save cost.

## How We can Help You?

Being one of the most reliable CCTV Solution here in Singapore, we offer you a good CCTV Solution and good support, that will help to achieve save cost by installing the cameras at best suitable positions to maximize the surveillance coverage.

To make this possible, we strive to improve the efficient and effective operation through remote monitoring from any where and any place without personally travel to your office.

# More Like a Partner than a Vendor

We are obsessed with your success. We see ourselves more like a partner in your business than just a vendor.

## Why do you need CCTV security?

CCTV in Singapore is considered to be one of the most effective solutions among the modern security measures in the market today. The mere sight of the CCTV system is a threat to burglars and trespassers. Studies show that a house with CCTV cameras installed near the front door is less likely to be robbed due to robbers' cautiousness about being caught on the camera. For this reason, one can see why there is a need for CCTV security systems to be installed in one's property.

## Why Choose One Stop Office Solution?

One Stop Office Solution offers a wide range of office supplies and IT products that can make your home and workplace a better place to stay in. One of such solutions is our CCTV in Singapore. We offer CCTV systems as a form of modern security measures for homes and offices. With our line of CCTV cameras, you will be able to find the best fit when it comes to your requirements and budget. This solution is further backed by our excellent customer support.

# Services we offered

## CCTV SYSTEM

Our CCTV camera solution enables the users to see what the CCTV cameras see LIVE over the Internet on various types of PC (Windows & Mac) and phones (iPhone, iPad, Android phones), and to record the CCTV camera video digitally for surveillance purpose.

## ACCESS CONTROL

One Stop Office Solution (Singapore access control specialist) offers reliable electronic pin keypad door access, proximity card access, fingerprint biometric or face recognition access control solutions.

## INTRUSION ALARM

We provide and install Smart Security Alarm Systems for offices, schools, retail outlets, factories or homes. Both wired & wireless security alarm systems are available from us.

# Services we offered

## SECURITY ADVISORY

CCTV Surveillance & Security areas are our specialty. We can help your organization save money by ensuring that the surveillance & security systems installed meet your requirement at the most cost effective way.

## SECURITY COURSES

Attend this workshop to understand the latest CCTV technologies, avoid pitfalls that will make you regret your purchase later, future proof your CCTV and maximise your CCTV return on investment.

## GUARD TOUR

One Stop Office Solution (Singapore guard tour system specialist) offers reliable guard tour / patrol tour monitoring systems for companies, government agencies, shopping malls, factories, and warehouses.

# Services we offered

## VIDEO INTERCOM

One Stop Office Solution (Singapore audio video intercom specialist) offers reliable basic audio only door intercom, to the more advanced color video intercom solution.

## SME/SMB PABX

For voice conversation – your telephone system is an integral part of your organization and is your main tool of communication. It is your primary link to your business partners, customers, suppliers, employees, colleagues, friends, and even family members.

## COVERT SYSTEM

We provide best-of-breed spy camera products in our solution offerings to our clients.

# OUR SOLUTION

Solution**

**Video Conferencing  
Solution**

**Security Alarm  
Solution**

**PABX  
Solution**

# Door Access Solution

## Door Access Products (Proximity card or Biometric)

Your door access control system, just like the CCTV surveillance in Singapore, may help you improve not only the security but also the productivity, efficiency, morale, and even the overall disposition in your office. We believe that security systems like CCTV cameras and access control are more than just technology; it's also about giving people peace of mind and assisting them in making the most of their actions. Your employees' minds can be freed from security concerns with the correct CCTV and door access control system. Unauthorized entry to a site helps protect the premises, as well as the people and valuables within them, from damage or theft. At the same time, it might serve as a safety precaution, keeping people from approaching a potentially hazardous place or piece of equipment.

### PRODUCT

#### Proximity Card

A proximity card or prox card is a contactless smart card which can be read without inserting it into a reader device.

#### Biometric Fingerprint

One Stop Office Solution offers you various security system for you and your family, such as Biometric Fingerprint, etc.

#### Face Recognition Access

One Stop Office Solution offers you various security system for you can your family needs, such as Face Recognition Access, etc.

# Surveillance DIY Solution

## Surveillance DIY

A security camera, commonly known as CCTV in Singapore provides peace of mind by giving the idea that an extra pair of eyes is always there. CCTV surveillance has been more popular in recent years, and it is no longer just a company security element, but also a sought-after necessity among local houses of all sizes and types. Installing a trustworthy CCTV Camera is a practical step because a security kit provides you with a preemptive advantage when it comes to safety. Such equipment is essential whether you own a business or simply want to keep your family secure. Good thing that you can now DIY this security system for a more budget friendly security.

## PRODUCT

# Video Conferencing Solution

## Video Conferencing for SME / MNC

Apart from CCTV in Singapore, we are also known for supplying quality and reliable video conferencing platforms for online selling, product launch, conferences and more. Video conferencing is a kind of communication that connects a group of people via a live video and audio broadcast over the internet. Our CCTV surveillance company offers specialised software and services to hold video conferences. Video conferencing is becoming a more practical mode of communication for both small and large enterprises. Businesses of all sizes, across a wide range of industries and sectors, can profit from video conferencing.

## PRODUCT

### **Cloud-based Video Conferencing System**

**ZERO** upfront hardware investment, **ZERO** maintenance !

Low monthly subscription plan for a system that works with almost all types of end devices and conferencing systems.

# Security Alarm Solution

## Security Alarm

### Security Alarm

Just like installing CCTV cameras in Singapore, the benefits of having a home security monitoring system are numerous. They assist in keeping your family safe, allowing you to focus on the more essential elements of life while also providing you with peace of mind. To begin with, the alarm system, along with CCTV surveillance, is sufficient to dissuade an intruder. However, as soon as the alarm goes off, the police are alerted and summoned to ensure that your home is kept safe at all times. Many home automation functions are included in home security monitoring systems. This system will allow you to keep track of your energy consumption and turn off utilities when you leave the room. This results in cheaper monthly bills and fewer energy waste.

## PRODUCT

Commercial grade Wireless Security Alarm system

Commercial grade Wired Security Alarm system

# PABX Solution

## PABX

Apart from providing quality CCTV cameras in Singapore, we are also a leading provider when it comes to communication solutions. A PABX (Private Automatic Branch Exchange), sometimes known as a PBX, is a system that allows a corporation to construct its own internal phone network. As a result, internal calling and call rerouting may be simplified. A switch system that works in the same way as a modified traditional switchboard processes PBX audio, video, instant messaging, and other corporate communications.

## PRODUCT
